

PRESS RELEASE

21.10.2009: Pioneering concept – rent your fitting system

Real Ear Ltd. is a new innovative company, who is offering their customers to rent their fitting system. Primus Fitting System is the most visionary fitting system on the market and includes everything you need within audiometry, real ear measurements, client counselling and hearing aid testing.

Renting your fitting system has many advantages: the software is always up to date with the newest standards of the industry, calibration takes place without downtime or extra costs, you have access to free online support, there is a short contract period and you pay a regular low price – all inclusive.

Primus Fitting System can be bought via the webshop at www.real-ear.com and in 3 simple steps you are off: 1) Order your Primus Fitting System in the webshop. 2) Download and install software. 3) Receive and set up hardware.

So why buy your fitting system, when you can rent it?

Contact Real Ear A/S for more information.
